

We are looking for volunteers to go out and help businesses in Dingwall...

KEEP THE HEAT IN!

Friends of the Earth: Inverness & Ross recently began their new Keep The Heat In campaign, which will help local businesses reduce their energy use and lower carbon pollution - even just closing the door in winter can result in huge savings.

The Keep The Heat In campaign will be starting in Dingwall on **Saturday 11th June** and we need volunteers to help promote the availability of Energy Advisors and free loans of energy monitors.

We are meeting at **The Greenhouse at 9.45am** to discuss the campaign before volunteers go out onto Dingwall High Street to talk to retailers about their energy use.

For more information call 07715 663781 or email keeptheheatincampaign@gmail.com
